

INFORMATION LETTER
of the international scientific and practical conference
**"ECONOMIC POLICY AND SUSTAINABLE DEVELOPMENT OF
KAZAKHSTAN: SCIENCE, LAWMAKING AND PRACTICE"**

DEAR COLLEAGUES AND PARTNERS!

The international scientific and practical conference **"ECONOMIC POLICY AND SUSTAINABLE DEVELOPMENT OF KAZAKHSTAN: SCIENCE, LAWMAKING AND PRACTICE"** will be held at **Esil University on February 12, 2026**, dedicated to the 60th anniversary of the famous scientist, economist and public figure, Doctor of Economics, Professor **Berik Beisengaliyev**, who made a significant contribution to the study of problems of the public administration system of the national economy, interaction of its public and private sectors, development of the quasi-public sector of the Republic of Kazakhstan, competitiveness of the financial and banking system, the agro-industrial complex and other sectors of the national economy.

CONFERENCE CONCEPT

The conference is devoted to the generalization and development of scientific ideas and results of the anniversary, aimed at improving state regulation of economic processes, production, distribution and provision of public goods, transformation of public and corporate governance, regional and sectoral development, sustainable development of socio-economic systems of the Republic of Kazakhstan.

The conference focuses on the profound transformations of the public and private sectors of the national economy, taking place under the influence of digitalization, artificial intelligence, quasi-public sector reform, and changes in intellectual capital formation models.

The conference brings together two key research agendas:

1. Analysis of systemic effects of quasi-public sector reform and formation of a new model of public administration;
2. Research on the impact of artificial intelligence on markets, opportunities and risks of digital transformation for young people.

CONFERENCE SECTIONS

**Section 1 "Economic policy and public administration in the context of
transformation"**

Focus of the section:

- strategic planning and economic policy of the state;
- institutional reforms and the quality of public administration;
- the role of the quasi-public sector in sustainable development;

- government efficiency, regulatory policy, public policy.

Section 2 "Financial system, budget policy and sustainability of the national economy"

Focus of the section:

- financial system and financial sovereignty;
- budget and tax policy;
- national foundations and intergenerational responsibility;
- macroeconomic stability and anti-crisis regulation.

Section 3 "Sustainable development, ESG and socio-economic responsibility"

Focus of the section:

- ESG-transformation of the public and corporate sector;
- social policy, labor market and human capital;
- sustainable development of regions;
- environmental policy and "green" economy.

Section 4 "Science, lawmaking and economic policy implementation practices"

Focus of the section:

- interaction of science and lawmaking;
- evidence-based policy and analytical support for solutions;
- assessment of regulatory impact;
- best practices of economic policy implementation in the Republic of Kazakhstan and abroad.

TERMS OF PARTICIPATION

To participate in the conference, you must submit a report prepared according to the requirements listed below to the organizing committee by **January 25, 2026** via email aldabergen.e@esil.edu.kz.

We remind you that authors are responsible for the content of the article and the accuracy of facts. The Organizing Committee reserves the right to reject the publication of reports that do not meet the established requirements in their content and design.

For all questions and additional information, please contact the following address aldabergen.e@esil.edu.kz.

Phone: +7-706-424-06-12

The contact person is Yerasyl Aldabergen.

REQUIREMENTS FOR THE DESIGN AND STRUCTURE OF ARTICLES

The texts of reports of 4-5 full A4 pages (210x297 mm), including figures and tables, should be typed in the Word for Windows text editor in Times New Roman font (Times New Roman, Times/Kaz, etc.), size 14 in 1.0 spacing, margins - 25 mm on all sides.

In the upper-left part of the sheet, before the title of the article, the UDC is printed (required). Next, the author's surname and initials, academic degree and title, place of work, and city are printed on the right side of the sheet. The title of the report is printed in capital letters through a space in the middle of the sheet, followed by an abstract in the language of the published material (at least 5-6 sentences), followed by keywords (at least 7 words) in Kazakh, Russian and English.

References to the literature used are printed in the text in square brackets. The list of references is printed at the end of the text. At the end of the article, after the list of references, there should be a translation of the abstract (in Kazakh or Russian and English).

ATTENTION TO THE AUTHORS!

Within the framework of the conference, it is planned to publish classical scientific articles in a collection of papers indexed in the Scopus database. The Organizing Committee accepts such scientific articles that have not been previously published or are not under consideration in other publications according to the following requirements: the language of the article is English; the length of the article is 6000-8000 words, including a list of sources; the originality of the article is at least 75%; the structure of the article must correspond to the IMRAD model.

The full requirements for such articles can be found in appendix 1 to the information letter.

We invite all interested parties to participate in the discussion of important and relevant topics for the development of the Republic of Kazakhstan. Your contribution to the scientific dialogue will be an important step towards the further development of science and education in our country!

With respect
Conference Organizing Committee
and Esil University staff

APPENDIX 1

to the information letter about the international scientific and practical conference
"ECONOMIC POLICY AND SUSTAINABLE DEVELOPMENT OF KAZAKHSTAN:
SCIENCE, LAWMAKING AND PRACTICE"

Requirements for the content and structure of classical scientific articles published in a collection of papers indexed in the Scopus database

1. General Provisions

The International Scientific Conference accepts **original research articles** that have not been previously published and are not under consideration by other journals. The topic of the manuscript must correspond to the scientific scope of the conference.

The language of the manuscript is **English**. The length of the manuscript is **6,000-8,000 words**, including references. The type of manuscript is an **original research article**. Submitted manuscripts must demonstrate an originality level of at least 75%.

Following the conference, selected high-quality papers will be recommended for publication in **peer-reviewed journals indexed in the Scopus database**, in accordance with the requirements of the respective journals.

2. Technical Formatting Requirements

File format: **Microsoft Word (*.docx)**.

Text formatting:

- font: *Times New Roman*;
- font size: **12 pt**;
- line spacing: **1.5**;
- text alignment: **justified**;
- first-line indentation: **1.25 cm**.

Page layout:

- top margin: **2 cm**;
- bottom margin: **2 cm**;
- left margin: **3 cm**;
- right margin: **1.5 cm**.

Page numbering should be placed **at the bottom center**, starting from the second page.

3. Manuscript Structure (IMRAD)

The manuscript must be strictly structured in accordance with the **IMRAD model** and include the following mandatory elements:

3.1. Title of the Article (Font: *Times New Roman*, **12 pt**, centered, **ALL CAPITAL LETTERS**). The title should be: concise and informative; clearly reflecting the main idea of the study; free of abbreviations, formulas, and excessive details.

Below the title, the following information should be provided: authors' surnames and initials; the corresponding author should be marked with an asterisk (*) and their e-mail address indicated; affiliation(s) of each author.

3.2. Abstract. The length of the abstract should be **200-250 words**. The abstract must clearly state: the purpose of the study; the methodology applied; the main results; scientific novelty and practical significance. The abstract **must not contain** references, tables, figures, or formulas.

3.3. Keywords provide **5-7 keywords or key phrases** reflecting the subject and methodology of the study. Keywords should not fully duplicate words used in the title.

3.4. Introduction. The introduction should: justify the relevance of the research problem; describe the scientific context and research problem; identify gaps in existing studies; clearly formulate the aim and objectives of the study; formulate a research hypothesis, if applicable. The introduction should not represent an extended literature review.

3.5. Literature Review. This section should include: analysis of recent academic publications related to the research topic; comparison of different theoretical and empirical approaches; identification of scientific debates and contradictions; justification of the author's research position. It is recommended to use publications from journals indexed in **Scopus and Web of Science**, primarily from the last **5-7 years**.

3.6. Materials and Methods. This section should: describe the research methodology; specify data sources and the empirical base; justify the choice of analytical methods; ensure reproducibility of the research results. The methods used must correspond to the stated research objectives.

3.7. Results. This section should present: the main research findings; quantitative and/or qualitative data; tables and figures, where appropriate. Interpretation of results is **not permitted** in this section; only factual findings should be presented.

3.8. Discussion. In the discussion section, the author should: interpret the obtained results; compare them with findings from previous studies; demonstrate the contribution of the study to theory and practice; indicate research limitations.

3.9. Conclusion. The conclusion should: summarize the main research results; confirm the achievement of the research objectives; highlight scientific and practical significance; outline directions for future research. The conclusion should not duplicate the abstract.

3.10. References. The reference list must be formatted **strictly in accordance with APA Style (7th edition)**. Requirements: only sources cited in the text should be included; the minimum number of references is **20-25**; at least **50% of references must be international sources**; in-text citations should follow the format: *(Author, Year)*, *(Author & Author, Year)*, *(Author et al., Year)*.

4. Additional Requirements. All tables and figures must be numbered and titled. Data sources must be indicated below tables and figures. All abbreviations and acronyms must be defined at first use. The use of generative artificial intelligence is permitted **only as a supporting tool** and does not release the author from responsibility for the content of the manuscript.

5. Requirements for Tables and Figures

5.1. General Provisions. Tables and figures should be used **only when necessary** and must: directly complement and illustrate the text; have clear and informative titles; be referenced in the text prior to placement. All tables and figures must be original or accompanied by proper source attribution.

5.2. Tables. Formatting requirements for tables: tables should be numbered consecutively throughout the manuscript (Table 1, Table 2, etc.); the table title should be placed **above the table**, aligned to the page width, with a first-line indentation; table titles should be concise and informative; font inside tables: *Times New Roman*, **10 pt**; line spacing in tables: **single**; tables must not exceed page margins; vertical lines are not allowed in tables; all symbols, abbreviations, and notations must be explained in notes.

Data sources: the data source should be placed **below the table**, in italics.

Example:

Table 1. Example of Table Formatting

Indicator	2022	2023
Employment rate	65.4	67.1

Source: compiled by the author based on data from the Bureau of National Statistics of the Republic of Kazakhstan (2023).

5.3. Figures (Graphs, Charts, Diagrams, Schemes). Formatting requirements for figures: figures should be numbered consecutively throughout the manuscript (Figure 1, Figure 2, etc.); the figure title should be placed **below the figure**, centered, without first-line indentation; the title should clearly reflect the content of the figure; all figure elements must be readable when printed;

preferred file formats: **PNG, JPG, TIFF**; image resolution: **at least 300 dpi**; color figures are allowed but must remain legible in grayscale; the use of 3D graphics is not recommended.

Sources and notes: the data source should be placed below the figure title, in italics; explanatory notes may be added if necessary.

Example:

Figure 1. Example of Figure Formatting

Source: author's calculations.

5.4. References to Tables and Figures in the Text. All tables and figures must be referenced in the text. Examples of correct references: "...as shown in Table 3", "...as presented in Figure 1". Phrases such as "see the table below" or "in the figure above" are not permitted.

5.5. Copyright and Ethics

Authors are responsible for compliance with copyright regulations when using tables and figures. When reproducing tables or figures from other sources, authors must: obtain permission from the copyright holder, if required; provide proper source attribution in accordance with APA requirements. The use of AI-generated images is permitted **only with mandatory disclosure** in the caption or notes.

6. Final Provisions

The deadline for paper submission is **January 26, 2026**. An author may submit and have accepted no more than two papers, including co-authored papers.

Manuscripts that do not comply with these requirements may be returned to the authors for revision or rejected by the Conference Editorial Board.

The authors will be notified additionally about the amount of the fee for the publication of scientific articles in the proceedings.

The contact person for the reception and placement of this group of articles is Dr. Sergey Ryumkin (e-mail: ryumkin.s@esil.edu.kz).
